

Part B Application form

Application for a permit

**Local Authority Pollution Prevention and Control
Pollution Prevention and Control Act, 1999
Environmental Permitting (England and Wales) Regulations 2010**

Introduction

When to use this form

This environmental permitting regime is known as and referred to as Local Authority Pollution Prevention and Control ('LAPPC'). Installations permitted under this regime are known as Part 'B' installations. Use this form if you are sending an application for a 'Part B' permit to a Local Authority under the Environmental Permitting (England and Wales) Regulations 2010 ("the EP Regulations").

Before you start to fill in this form

You are strongly advised to read relevant parts of the Defra general guidance manual issued for LA-IPPC and LAPPC, republished in March 2010 and available at <http://www.defra.gov.uk/environment/quality/pollution/ppc/localauth/pubs/guidance/manuals.htm>.

This contains a list of other documents you may need to refer to when you are preparing your application, and explains some of the technical terms used. You will also need to read the relevant Process Guidance note. The EP Regulations can be obtained from The Office of Public Sector Information, or viewed on their website at http://www.opsi.gov.uk/legislation/about_legislation.htm.

Which parts of the form to fill in

You should fill in as much of this form as possible. The appropriate fee must be enclosed with the application to enable it to be processed further. When complete return to:

*North West Leicestershire District Council
Environmental Health
Council Offices
Coalville
Leicestershire
LE67 3FJ*

Other documents you may need to submit

There are number of other documents you will need to send us with your application. Each time a request for a document is made in the application form you will need to record a document reference number for the document or documents that you are submitting in the space provided on the form for this purpose. Please also mark the document(s) clearly with this reference number and the application reference number, if you have been given one, which will be at the top of the form overleaf. If you do not have either of these, please use the name of the installation.

Using continuation sheets

In the case of the questions on the application form itself, please use a continuation sheet if you need extra space; but please indicate clearly on the form that you have done so by stating a document reference number for that continuation sheet. Please also mark the continuation sheet itself clearly with the information referred to above.

Copies - *not relevant for e-applications*

Please send the original and [2] copies of the form and all other supporting material, to assist the Authority in conducting any necessary consultation process.

If you need help and advice

We have made the application form as straightforward as possible, but please get in touch with us at the local authority address given above if you need any advice on how to set out the information we need.

B1 About the installation

Please fill in the table below with details of all the current activities in operation at the whole installation.

In **Column 1, Box A**, please identify all activities listed in Schedule 1 to the EP Regulations that are, or are proposed, to be carried out in the stationary technical unit of the installation.

In **Column 1, Box B** please identify any directly associated activities that are, or are proposed, to be carried out on the same site which:

* have a technical connection with the activities in the stationary

technical unit
 * could have an effect on pollution

In **Column 2, for Boxes A and B** please quote the Chapter number, Section number, then paragraph and sub-paragraph number as shown in Part 2 of Schedule 1 to the EP Regulations [For example, *Manufacturing glass and glass fibre where the use of lead or any lead compound is involved*, would be listed as Chapter 3, Section 3.3, Part B(b)].

B1.1 Installation table for new permit application

COLUMN 1	COLUMN 2
Box A Activities in the stationary technical unit	Section in Schedule 1 to the EP Regulations
<i>Drying & Curing Processes</i>	<i>Chapter 6, Section 6.4, Part B (a) (iv)</i>
Box B Directly-associated activities	Schedule 1 or Schedule 3 references (if any)
<i>Raw Material Storage and Handling Area</i>	
<i>Rinsing Processes</i>	
<i>Pre-Cursor Manufacturing (including Moulding and Barrier Sheet Process)</i>	
<i>Texturing Process</i>	
<i>Post Treatment (including Closure Patching and Gel Insertion)</i>	

B1.2 Why is the application being made?

- ☐ The installation is new
- ☒ The installation is existing, but changes to the installation or to the EP Regulations means that an LAPPC Part B permit is now required.

B.1.3 Site Maps

Please provide:-

* A suitable map showing the location of the installation clearly defining extent of the installations in red

Doc Reference See Drawing L-1 Site Boundary Plan within Nagor Ltd - Part B Application Report – Ashby-de-la-Zouch, Mabbett & Associates Ltd, April 2014 (Report Ref.: 2014.020.001)

* A suitable plan showing the layout of activities on the site, including bulk storage of materials, waste storage areas and any external emission points to atmosphere

Doc Reference See Drawing L-2 Site Layout Plan within Nagor Ltd - Part B Application – Ashby-de-la-Zouch, Mabbett & Associates Ltd, April 2014 (Report Ref.: 2014.020.001)

B2 The Installation

Please provide written information about the aspects of your installation listed below. We need this information to determine whether you will operate the installation in a way in which all the environmental requirements of the EP Regulations are met.

B2.1 Describe the proposed installation and activities and identify the foreseeable emissions to air from each stage of the process (this will include any foreseeable emissions during start up, shut down and any breakdown/abnormal operation)

The use of process flow diagrams may aid to simplify the operations

Doc Reference: See Nagor Ltd - Part B Application Report – Ashby-de-la-Zouch, Mabbett & Associates Ltd, April 2014 (Report Ref.: 2014.020.001)

B2.2 Once all foreseeable emissions have been identified in the proposed installation activities, each emission should be characterised (including odour) and quantified.

Atmospheric emissions should be categorised under the following

- i. point source, (e.g. chimney / vent, identified by a number and detailed on a plan)
- ii. fugitive source (e.g. from stockpiles / storage areas).

If any monitoring has been undertaken please provide the details of emission concentrations and quantify in terms of mass emissions. If no monitoring has been undertaken please state this.

(Emission concentration = e.g. milligrams per cubic metre of air; mass emission = e.g. grams per hour, tonnes per year)

Due to the timescales set for submission of the application, no site specific emission monitoring data was available for the Ashby-de-la-Zouch facility. However, stack monitoring will be undertaken and the corresponding data submitted in order to quantify emissions to atmosphere.

A mass balance exercise will also be undertaken using this data to determine the fugitive emissions.

B2.3 For each emission identified from the installations' activities describes the current and proposed technology and other techniques for preventing or, where that is not practicable, reducing the emissions into the air. If no techniques are currently used and the emission goes directly to the environment, without abatement or treatment then this should be stated

Doc Reference See Nagor Ltd - Part B Application Report – Ashby-de-la-Zouch, Mabbett & Associates Ltd, April 2014 (Report Ref.: 2014.020.001)

B2.4 Describe the proposed systems to be used in the event of unintentional releases and their consequences. This must identify, assess and minimise the environmental risks and hazards, provide a risk based assessment of any likely unintentional releases, including the use of historical evidence. If no assessments have been carried out please state.

Doc Reference: See Nagor Ltd - Part B Application Report – Ashby-de-la-Zouch, Mabbett & Associates Ltd, April 2014 (Report Ref.: 2014.020.001)

B2.5 Describe the proposed measures for monitoring all identified emissions including any environmental monitoring, and the frequency, measurement methodology and evaluation procedure proposed (e.g. particulate matter emissions, odour etc). Include the details of any monitoring which has been carried out which has not been requested in any other part of this application. If no monitoring is proposed for an emission please state the reason.

Doc Reference: See Nagor Ltd - Part B Application Report – Ashby-de-la-Zouch, Mabbett & Associates Ltd, April 2014 (Report Ref.: 2014.020.001)

B2.6 Provide detailed procedures and policies of your proposed environmental management techniques, in relation to the installation activities described.

Doc Reference: See Nagor Ltd - Part B Application Report – Ashby-de-la-Zouch, Mabbett & Associates Ltd, April 2014 (Report Ref.: 2014.020.001)

B3 Impact on the Environment

B3.1 Provide an assessment of the potential significant local environmental effects of the foreseeable emissions (e.g. is there a history of complaints and/or is the installation in an air quality management area?)

Doc Reference: See Nagor Ltd - Part B Application Report – Ashby-de-la-Zouch, Mabbett & Associates Ltd, April 2014 (Report Ref.: 2014.020.001)

B3.2 Are there any sites of special scientific interest (SSSIs) or European protected sites which are within either

- 2 kilometres for an installation which includes Part B combustion, incineration (but not crematoria), iron and steel, and non-ferrous metal activities, or
- 1 kilometre for Part B mineral activities and cement and lime activities, or
- ½ a kilometre for all other Part B activities?

No ☒

Yes ☐ *please give names of the sites*

B3.3 Provide an assessment of whether the installation is likely to have a significant effect on such sites and, if it is, provide an assessment of the implications of the installation for that site, for the purposes of the Conservation (Natural Habitats etc) Regulations 1994 (see appendix 2 of Annex XVIII of the General Guidance Manual).

Doc Reference: Not Applicable.

B4 Environmental Statements

B4.1 Has an environmental impact assessment been carried out under The Town and Country Planning (Environmental Impact Assessment) (England & Wales) Regulations 1999/293, or for any other reason with respect to the installation?

No ☒

Yes ☐

Please supply a copy of the environmental impact assessment and details of any decision made

Doc Reference: Not Applicable.

B5 Additional information

Please supply any additional information which you would like us to take account of in considering this application.

Doc Reference: See Nagor Ltd - Part B Application Report – Ashby-de-la-Zouch, Mabbett & Associates Ltd, April 2014 (Report Ref.: 2014.020.001)
