Available to hire

Mobile skate park...what is it?

A Big Lottery funded project supported and organised by North West Leicestershire District Council for all communities to access within the district.

It is a mobile unit which builds into a skate park that can be used at various locations. It takes up a limited amount of space when stored, yet creates a decent sized skate area when set up.

The unit is easy to transport and can be set up in most areas depending upon

the size and suitability of space available.

Mobile skate park...who's it for?

Children and young people aged 8 - 19 can use the skate park after completing a consent form. Children under the age of 10 can use the skate park but must be accompanied by an adult.

The skate park can be used by all... Just turn up, have fun and test out your skills!

You can find out more about the mobile skate park by visiting our "whats on" page at www.nwleics.gov.uk/skate_zone/home.asp

Mobile skate park...what is needed?

Skate boards, inline skates and BMX's are most commonly used on the skate park as this equipment is most effective and suitable.

Helmets are available for optional use or on skate staff recommendations. Other protective clothing e.g. knee/ elbow pads can be worn but are not provided.

Mobile skate park...what about the weather?

When it rains, the skate park becomes very slippery and therefore it is not safe to be used. Skate park sessions must then be cancelled.

If the weather turns bad during the session, children or young people will not be able to use the skate park

while it's raining, but skate staff will dry the ramps and allow the young people to use it again once it is safe.

If skate sessions are cancelled due to poor weather conditions, then re-arranged dates can be negotiated.

Mobile skate park...the cost of hiring?

We would recommend that the hiring agency/group/club/parish council etc do not charge the users for using this equipment but any charges applied will be at the sole discretion and management of the hirer.

To hire out the mobile skate park, there are two main package deals available although other bespoke packages can be negotiated.

Package 1: £300 for 2 hour skate park session

Package 2: £350 for 3 hour skate park session

(Prices valid for bookings made before 31/03/10)

These prices include;

- 2/3 fully trained skate park attendants
- Full set up and take down of the skate park
- Supervision, coaching support and assistance throughout the sessions.
- Skate park transport including Mini-bus hire/mileage and driver costs
- Approximately 5 skate boards available to borrow for those who forgot!

Typical hire uses:

Ideal for community events, galas, fun days, special occasions and group bookings

Terms and conditions:

Available on request
