Recommendations	THAT CABINET RECEIVES AND COMMENTS ON THE QUARTER 4 PERFORMANCE REPORT (JANUARY – MARCH 2013).

Executive Summary

1. Background

1.1 This report summarises the Council's performance to the end of Quarter 4, covering the period from January to March 2013. The report includes a summary of performance against actions and performance indicators set out in the Council Delivery Plan for Quarter 4 of 2012/13, along with an overview of finance, sickness absence and health and safety performance information.

2. Performance for Quarter 4 of 2012/13

2.1 Performance against the Council Delivery Plan

During Quarter 4, the Council had 36 actions linked to 36 milestones. 29 of the 36 milestones (81%) set out for the Quarter were achieved. Of the remaining 7 milestones, 4 are off track (red) and 3 under control (amber). 14 actions were not progressed during the Quarter as they were dependent on actions in the previous quarter which were either rescheduled to 2013/14 or not applicable.

Of the 48 performance indicators set out for the Quarter, 85% (41 indicators) were on or above target, an improvement from the 79% achieved during Quarter 3.

Key achievements during Quarter 4:

- 38% of total spend during the year was with small and medium-sized enterprises (SME's) an increase from 30% in the previous year.
- 99.2% of National Non Domestic Rates (NNDR) collected during 2012/13, this is the highest in Leicestershire.
- 91% of customers were very/fairly satisfied with the planning service, an improvement of 4% when compared to the same period of 2011/12. During 2012/13, average satisfaction with the planning service was 90%, an improvement of 7% when compared to 2011/12.
- There has been a 50% reduction in dog fouling in hot spot areas with 90% and 100% reduction in two areas.
- A total of 91 affordable homes were delivered during 2012/13, an increase of 31 when compared to 2011/12.

2.2 Finance Performance

At the end of Quarter 4, the Council's forecast General Fund budget will be approximately £280,000 underspent. Budgets continue to be closely monitored for all areas on a monthly basis by CLT.

2.3 Management of Absence Performance

Cumulative sickness absence levels of 8.86 days per full time equivalent member of staff is above the target of 8 days for 2012/13, the main reason for absence during the year was Musculo-Skeletal problems.

The corporate target for 2013/14 has been set at a reduction to 7.5 working days per full time equivalent. Individual targets for all team areas have also been established, taking into account the previous levels and the nature of the work undertaken. The management of absence remains a key priority for CLT and managers across the Council.

2.4 Health & Safety Performance

In Quarter 4 2012/13, actual numbers of accidents to employees was 11, which is comparable with the number of accidents recorded in the previous Quarter and 2 more than the same period in 2011/12. The highest number of accidents by type in Quarter 4 were due to slips/trips/falls where 5 accidents were reported.

To reduce future accidents of the type reported, managers are asked to review each incident and detail the actions they will take to reduce such accidents. This could include actions such as undertaking a risk assessment review or arranging for attendance at a manual handling course.

Housing Services Performance Indicators below target for Quarter 4

Indicator	Target	Actual	Status	Comments
HCS-SP-TTT-HM-03 (Housing Management) - % of dwellings vacant but unavailable	2.37%	2.80%		A pro-active approach is taken to ensure that properties are advertised regularly through the Choice Based Lettings Allocations system, including properties in low demand. A further 6 properties have been held to be used for temporary moves for vulnerable people who are unable to manage the disruption caused by the improvement work being undertaken as part of the Decent Homes Improvement Programme. This together with an increase in the number of properties requiring extensive works to bring them to the void lettable standard, (a standard we have agreed with our involved tenants) has resulted in more properties being unavailable at the end of the quarter
HCS-SP-TTT-HRI-02 (Housing Repairs) - % total responsive repairs completed within target satisfaction	88%	82%		Quarter 4's performance is an improvement from the previous quarter, Year to date performance is 83% and is a drop of 6% when compared to 2011/12. Investigation into dissatisfied tenants has identified a number of issues i.e. unable to complete the work earlier than appointed (due to increase in call volumes as a result of the cold spell of weather experienced during the quarter and category of job). Survey form is to be reviewed in 2013/14 to encourage more tenants to complete survey as we are currently experiencing a less than 10% response rate which means the results are of questionable validity.
HCS-SP-TTT-HM-01 (Housing Management) - Percentage of rent loss through vacant dwellings	0.75%	0.83%		As more properties benefit from improvement works as part of the Decent Homes Improvement Programme, some properties are remaining empty for longer increasing the level of rent loss. Performance is monitored on a weekly basis to ensure properties are available to allocate at the earliest opportunity.

Regeneration & Planning

Council Delivery Plan – Performance Highlights

Business and Jobs

- The Business Focus team co-ordinated and delivered a redundancy support session for Schlegel employees following the firm's administration. The Schlegel support session was well received by staff of Schlegel, the Schlegel directors, Springfields (Schlegel's administrators and Unite (Schlegel's union) with 70 (21%) of Schlegel's former staff attending.
- Partners who joined NWLD at the support session included; the Coalville CAB, MRC, HMRC, LCC Adult Learning, Stephenson College, In Training, Apricot Training, Wheels 2 Work, Care Plus EM, Job Centre Plus and a series of local and specialist recruitment agencies.
- 48 job seekers took part in the Spar sector based work academy (government initiative to help those who are ready for work and receiving benefits to secure employment) supported by NWLDC and JCP of whom 14 undertook further training through Care Training East Midlands. Spar has subsequently made 6 offers of employment.

We will also be fast tracking debt to ensure that post liability order recovery options can be fully considered/utilised during the financial year.

Legal & Support Services

Council Delivery Plan – Performance Highlights

Value for Money

- The income from the sale of legal services externally was £50K. This was against a target for 2012/13 of £35K and represents 15.5 % of the controllable expenditure for the service.
- Legal services were awarded LEXCEL accreditation for the 5th year running. LEXCEL is the national standard for legal practice management and is run by The Law Society. The team scored highly in the areas of client care, risk management and case management. The team is one of only 42 of 236 districts in the country to have been awarded LEXCEL.

Comments on major General Fund variances to the end of Quarter 4

Chief Executive's Directorate – underspent £116k

- Across the Chief Executive's Directorate, there are a number of minor over and underspendings within the directorate which net off against a £135k underspend on salaries.
- Benefits expenditure is forecast to be £36k underspent (Rent Allowances and Rent Rebates, partly offset by overspends on Council Tax Benefit and Bed & Breakfast).
- Rent on Industrial units is forecasted to be £23k under budget.

Director of Services – underspent £135k

- Overspending on external legal fees and advice relating to planning appeals and the second Bardon Grange planning application - £140k
- Increased Recycling Income and Land Charges income -£114k and £50k respectively
- Income shortfall on Building Control - £75k. This is due to a continued downturn in demand, an over optimistic forecast of income at the start of the year and a reduction in the levels of fees charged.
- Equalities, Stronger and Safer Communities and Refuse - Underspend on Salaries -£102K
- Street Action – underspend on Salaries -£65k

Contingency and Financing Cost

- We are forecasting that £130k of the contingency will not be required and that the overspending of £85k on Financing Costs identified in Quarter 1 will be confirmed.

Comments on HRA variances to end of Quarter 4

- The budgeted financing costs of the new Housing self-financing regime were calculated in January prior to the actual figures being available and were based on an assumed higher level of 'take on' debt and a higher level of interest charges. The actual costs are £417k lower in 2012/13. Note that this lower cost is already built into the approved HRA Business Plan, and the higher level of balances built up by this are programmed to be required in future years.
- Net increase in Employee related costs of £48k mainly due to customer services & other agency costs. Also forecast increase in Council tax for empty properties £12k. Forecast reductions of £15k in external audit fees, £15k in Contract Cleaning, £15k Bereavement allowance, £7k Tenant removal expenses and £11k for Energy Performance Certificates.
- In Special/Supporting People the Older Person's Service is forecast to be £59k underspent, £19k of which relates to reduced costs of the responder service & £20k forecast underspend due to re-alignment of Midlands Telecare contract with financial years.

Capital Expenditure – Forecast Expenditure April 2012 to March 2013

	General Fund	Special Expenses	HRA
Approved Budget for the Year	£1,193,000	£187,000	£8,225,000
C/F from 2011/12	£325,000	£63,000	£15,000
Approved projects in year	£159,000	0	0
Total Budget for 2012/13	£1,677,000	£250,000	£8,240,000
Likely outturn for 2012/13 (provisional)	£1,360,000	£34,000	£5,900,000

- The lower than budgeted out turn on the General Fund is mainly due to the works that takes place from one period to another on Disabled Facilities Grant Work which will be now completed in 2013/14. This has resulted in £263k been carried forward into 2013/14.
- Special Expenses - A few capital projects have slipped into 2013/14 mainly due to unforeseen circumstances and delays in the projects.
- HRA underspend on capital is mainly due to Insulation works which are now expected to be carried forward to future years and decent homes which has slipped into 2013/14.

Please note: Where there are negative figures in the table, these occur as a result of organisational structure changes, or when long-term absences have been reclassified as being disability-related.

- The Quarter 4 rate shows an increase to 8.86 working days lost per full time employee and is above the target of 8 days set for 2012/13. The outturn is an increase of 0.02 working days when compared to 2011/12.
- The overall rate has declined again during the final quarter of the year, which mirrors a slowing of the rate that happened in Q3. Standalone number of days lost per FTE during Q4 was 1.49 and is an improvement of 0.37 when compared to the same period of 2011/12.
- At the end of Q2 the annual rate was projected to be 10.4 days per fte, which fell to a projected rate of 9.8 days per fte at the end of Q3. There has been a relative fall in the percentage of short-term absences during 2012/13 when compared to the previous two years - the percentage of short-term absences has fallen to 38% of all absences, while in the previous two years the rates were around 50%.
- Return to work completion rates were high at 95%. Long-term absences are continuing to be reviewed on a weekly basis and reports are being issued to managers on a monthly basis.
