

Appendix 5

Comparison of Core Strategy Objectives from Further Consultation, Pre-Submission and Submission Versions

No.	2012 Core Strategy Objectives and 2013 revised submission	No.	2008 Core Strategy Objectives
	No objective relating to the 2008 SO1 objective.	SO1	Concentrate the majority of new development in the most sustainable locations, giving priority to previously developed land, in locations that have good access to services and facilities and public transport and / or the potential to contribute to the re-opening of the National Forest passenger rail line
SO1	<p>Improve economic prosperity and employment opportunities.</p> <ul style="list-style-type: none"> • Residents commute outside the district for better paid, professional and managerial jobs • Net inflow of workers • Population and housing growth • Low levels of educational attainment • High levels of car dependence <u>Road safety</u> • Expansion of East Midlands Airport • <u>Air quality and noise</u> 	SO7	Continue to diversify the districts economic base and meet the existing and future business needs of the district, including identifying sufficient land for employment purposes
SO2	<p>Provide for the growth of passenger and freight operations at East Midlands Airport having regard to improving access by sustainable transport modes and impact on the environment.</p> <ul style="list-style-type: none"> • Expansion of East Midlands Airport • Lack of public transport access to East Midlands Airport • Net inflow of workers • High levels of car dependence • High level of road injuries and deaths • Traffic congestion • Need to improve public transport 	SO11	Meet the operational needs of the East Midlands Airport whilst avoiding significant harm and securing mitigation for any unavoidable damage to the environment and developing sustainable transportation options to access the airport.
SO3	Enhance the vitality and viability of the district's town and local centres, with a particular focus on the regeneration of Coalville, in ways that help meet consumer needs.	SO9	Enhance the vitality and viability of Coalville and other centres across the district, particularly the revitalisation of Coalville town centre to perform as a

	<ul style="list-style-type: none"> • The need to revitalise town centres, especially Coalville • Local people want better shopping facilities • Limited services and facilities in rural settlements • High levels of car dependence • Traffic congestion • Need to improve public transport 		vibrant sub regional centre and a contemporary market town
SO4	<p>Support the sustainable growth of the rural economy, particularly tourism, leisure and the diversification of agricultural businesses.</p> <ul style="list-style-type: none"> • Provide for the growth of tourism • Protecting the countryside 	SO10	Encourage the sustainable diversification of the rural economy and protect and enhance the network of local centres and rural services
SO5	<p>Improve access to services and facilities including jobs, shops, education, sport and recreation, green space, communication networks, health and social care.</p> <ul style="list-style-type: none"> • The need to revitalise town centres, especially Coalville • Local people want better shopping facilities • Population and housing growth • Ageing population • Activities for teenagers • Limited services and facilities in rural settlements • Low levels of educational attainment • High levels of car dependence • Lack of public transport access to East Midlands Airport • Traffic congestion • Need to improve public transport • Reduced infrastructure funding 	SO14	Enhance and promote access to services and facilities by alternative modes of transport
SO6	<p>Reduce <u>Minimise</u> congestion, reduce the need to travel by private car whilst increasing the use of sustainable transport modes.</p>		

	<ul style="list-style-type: none"> • Residents commute outside the district for better paid, professional and managerial jobs • Net inflow of workers • The need to revitalise town centres, especially Coalville • Ageing population • Limited services and facilities in rural settlements • Obesity • Air quality <u>and noise</u> • High levels of CO2 emissions • High levels of car dependence • Lack of public transport access to East Midlands Airport • High level of road injuries and deaths • Traffic congestion • Need to improve public transport • Reduced infrastructure funding 		
SO7	<p>Increase the delivery of new homes to provide a stock of housing that meets the needs of the community, including the need for affordable housing.</p> <ul style="list-style-type: none"> • Population and housing growth • Need to increase supply of housing land • Ageing population • Changing housing needs • The need for affordable housing, particularly in the rural 	SO8	<p>Meet the different housing needs of the community by providing an adequate amount and range of housing, including affordable housing</p>

	areas		
SO8	<p>Promote social inclusion and reduce deprivation particularly in Priority Neighbourhoods.</p> <ul style="list-style-type: none"> • Neighbourhood Priority Areas • Ageing population • Activities for teenagers • Limited services and facilities in rural settlements • Low levels of educational attainment • Need to improve public transport 	SO12	Reduce social exclusion and deprivation, particularly in the Priority Neighbourhoods
SO9	<p>Promote healthier communities.</p> <ul style="list-style-type: none"> • Neighbourhood Priority Areas • Ageing population • Activities for teenagers • Air quality <u>and noise</u> • Obesity 		
SO10	<p>Improve community safety and reduce crime, the fear of crime and anti-social behaviour.</p> <ul style="list-style-type: none"> • Concerns about crime • Ageing population • Activities for teenagers • Neighbourhood Priority Areas • High levels of car dependence <u>Road safety</u> 		
SO11	<p>Prepare for, limit and adapt to climate change</p> <ul style="list-style-type: none"> • High levels of CO₂ emissions • Air quality <u>and noise</u> • Flooding 	SO3	Minimise the effects of, and the districts contribution towards, climate change, particularly minimising the risk from flooding and reducing the districts carbon footprint

	<ul style="list-style-type: none"> • High levels of car dependence 		
SO12	<p>Reduce the risk of flooding and avoid development in areas subject to flooding.</p> <ul style="list-style-type: none"> • Flooding • Improving design of new housing developments 	SO3	<p>Minimise the effects of, and the districts contribution towards, climate change, particularly minimising the risk from flooding and reducing the districts carbon footprint</p>
SO13	<p>Conserve the character and appearance, and improve our knowledge and understanding, of the historic environment and heritage assets.</p> <ul style="list-style-type: none"> • Provide for the growth of tourism • Protecting the countryside • Historic environment and industrial heritage 	SO4	<p>Protect and enhance the character and appearance of the built, historic and cultural environment</p>
SO14	<p>Support the continued transformation of the National Forest to a well-managed forested landscape with accompanying biodiversity, climate change, economic and social benefits.</p> <ul style="list-style-type: none"> • Supporting the National Forest • Provide for the growth of tourism • Protecting the countryside • Charnwood Forest • High levels of CO₂ emissions 	SO2	<p>Promote the appropriate development of the National Forest including realising the leisure, tourism and economic potential of the National Forest consistent with other objectives</p>
SO15	<p>Protect and enhance <u>geodiversity, biodiversity and landscape character and the quality of the natural environment.</u></p> <ul style="list-style-type: none"> • Supporting the National Forest • Provide for the growth of tourism • Protecting the countryside • Charnwood Forest • Nature conservation especially the protection of the River Mease SAC 	SO5	<p>Protect and enhance the landscape and biodiversity of the district, particularly the Charnwood Forest, National Forest and River Mease Special Area of Conservation</p>

SO16	<p>Achieve high quality and inclusive design.</p> <ul style="list-style-type: none"> • Community identity • Improving design of new housing developments • Historic environment and industrial heritage • Poor design 	SO6	<p>Require that new developments are of a high quality design in order to create attractive and safe places in which to live, work and play and to create a distinct local identity based upon the character and local distinctiveness of the district, particularly the National Forest where new development will be designed to reflect the forest setting, including the provision of tree planting.</p>
SO17	<p>Reduce the amount of waste produced and protect and manage the use of natural resources.</p> <ul style="list-style-type: none"> • Supporting the National Forest • High levels of CO₂ emissions • Protecting the countryside 		
SO18	<p>Reinforce the character and local distinctiveness of the district and its communities.</p> <ul style="list-style-type: none"> • Community identity • Provide for the growth of tourism • Protecting the countryside • Supporting the National Forest • Charnwood Forest • Nature conservation especially the protection of the River Mease SAC • Historic environment and industrial heritage • Poor design 	SO13	<p>Create healthy and strong communities and enhance provision of and access to 'green infrastructure' and sport, recreation and open spaces</p>
