

APPENDIX F

ENVIRONMENTAL INVENTORY

1. Scoring system used for this Plan

| Criterion (NPPF 2019) | Score range | | | Notes |
|--|-------------|-----|---|--|
| LOCAL IN CHARACTER , not an extensive tract of land | N | Y | | Yes is essential for LGS designation. The site should be a single bounded parcel of land, or a small, coherent group (evidence-based, with shared characteristics and in single ownership). |
| SPECIAL TO COMMUNITY: | | | | |
| PROXIMITY | 0 | 1-4 | 5 | 5 = an open space <u>within</u> a settlement 4 = adjacent to the settlement boundary (Limit to Development line when defined) 3, 2, 1 = successively farther from settlement 0 = most distant from main settlement(s) |
| BEAUTY | 0 | 1-2 | 3 | Subjective, relative (give justification); use consultation 'dot' map results for views. Only the most attractive land in the Plan Area should qualify. Most should get 0 or 1. |
| TRANQUILLITY | 0 | 1 | 2 | Tranquillity should be judged as a real experience; just being 'a long way from anywhere' doesn't make a site tranquil. Most sites should get 0. 2 will probably be limited to e.g. churchyards, well-designed memorial gardens, managed semi-natural habitats where birdsong is louder than traffic noise. |
| RECREATIONAL VALUE | 0 | 1-4 | 5 | 5, 4 = Public Open Spaces designed for sport and recreation or as facilities for children and young people 3 = Membership sport facilities (tennis, bowls, etc.). Very well used park or other recreational space with full or comprehensive public access. Managed wildlife site with public access. Semi-natural parkland (trees, grass) with public footpaths and no restriction on access. 2 = Paddock or grazing field with 1 or more public footpaths, e.g. well-used for dog-walking, traditional sledging field 1 = arable farmland with public footpath but no other access. 0 = private property with no public recreational value or access |
| LOCAL SIGNIFICANCE: | | | | |
| HISTORICAL SIGNIFICANCE | 0 | 1-4 | 5 | Historical significance can only apply to sites and features that can be seen (to be appreciated) or are proven buried archaeological features. NB cumulative: more features/designations = higher score. 5 = statutory site, includes or comprises Scheduled monument, Listed Building, feature or structure. National Trust or English Heritage site 4 = site with features in the County <i>Historic Environment Record</i> , Historic England <i>PastScape</i> records. <i>Registered park or garden</i> . Well-preserved <i>ridge and furrow</i> . 3, 2 = site includes feature, earthworks or building with known local historic environment significance – history includes 20 th century. Fainter <i>ridge and furrow</i> 1 = site of local oral or recorded history importance, no actual structure 0 = No evidence for historical environment significance |
| RICHNESS OF WILDLIFE (BIODIVERSITY); GEOLOGY | 0 | 1-4 | 5 | Protection of habitats and species, in compliance with EU Directives and English legislation, at the local level of individual land parcels. NB cumulative: more features/species = higher score. 5 = Statutory site, includes or comprises SSSI (biodiversity or geology) or other national or European designation. 4 = County Wildlife Trust, etc. <i>nature reserve</i> , <i>Country Park</i> with importance for biodiversity, etc. 3 – site with National, county and local biodiversity features, e.g. <i>Priority Habitats</i> , occurrence of one or more <i>Species of Conservation Concern</i> (use national or county Biodiversity Action Plan (BAP) Species lists), mapped Gt Crested newt ponds, bat roosts and foraging areas. County or local site designations e.g. <i>Local Wildlife Site</i> (LWS), Regionally Important Geological Site (RIGS), <i>Site of Importance for Nature Conservation</i> (SINC), <i>Local Nature Reserve</i> , <i>Community WildSpace</i> , etc. 2 = other site of known local biodiversity importance not recorded elsewhere with e.g. BAP species, species-rich hedgerows, watercourse, pond 1 = (parish background level), moderate or potential wildlife value 0 = no evidence for natural environment significance |
| Maximum possible score | 25 | | | |
