Dear Sir / Madam

**ENVIRONMENTAL PROTECTION ACT 1990
ALLEGED LIGHT NUISANCE
NEWBRIDGE HIGH SCHOOL, FOREST ROAD, COALVILLE**

I write to advise you that a complaint has recently been received by this Section, claiming that light coming from your building, is causing a light nuisance.

The complaint has not as yet been fully investigated. My purpose in writing to you at this stage, is to make you aware that light of this type can amount to a statutory nuisance, which the above detailed legislation is designed to control. As the occupier of the building you have a duty to ensure that residents of neighbouring premises do not suffer nuisance from any activity being carried on at your premises.

For more information on how the Local Authority deals with complaints please visit the website below. Also, please can you contact me to discuss the complaint in more detail.

<https://www.gov.uk/guidance/artificial-light-nuisances-how-councils-deal-with-complaints>

I must inform you that under the provisions of The Environmental Protection Act 1990, it may be necessary to carry out surveillance of your property, to further inquire into the allegation of nuisance.

If you have any questions or queries about this letter, please contact me on the telephone number above or by e-mailing on environmental.protection@nwleicestershire.gov.uk

Yours faithfully

[REDACTED]
