09/07/2020
16/07/2020
23/07/2020
13/08/2020
27/08/2020
03/09/2020
15/09/2020
22/09/2020
08/10/2020

If possible can you provide the information as a LAeq value stating the time frame i.e. 1 hour or 15 minutes.

Our response:

North West Leicestershire District Council does not hold the data recorded by the Static Noise Meter at Donington Park. This is held by Donington Park.

However from the list of dates you refer to, we have our own data for 03/09/2020 and 15/09/2020:

- On the 03/09/2020 observations were carried out in Castle Donington based on the westerly wind direction at 16:45 until 17:15. Racing could be heard clearly when wind gust was low but at a reasonable level 41-45dB LAeq 15 minutes. Trees rustling nearby were louder and blocked out the racing.
- On 15/09/2020 observations were carried out towards Aston on Trent at 11:35 following a complaint being received. Building works and an angle grinder could be heard. Motorbike noise could only be heard when straining to listen.

The supply of information in response to an EIR request does not confer the right to re-use the information. UK copyright law allows information supplied for the purposes of private study and non-

commercial research to be used without permission. Information supplied can also be re-used for the purposes of news reporting except for in the case of photographs.
