*Blackpoolby is at risk of flooding due to its location in a shallow basin and has been reported and documented as a flood risk area for the 34 years, both top water and sewage. This situation exists year without any extra development and has never been resolved. To risk additional load on the drainage infrastructure is a health risk, a wellbeing risk and an Environmental risk (SA1, 2, 9, 10, 14 & 15 inclusive)*

(Continue on a separate sheet/expand box if necessary)

- Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified at 5 above where this relates to soundness. (NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Should it be required to extend the village outside the present limits, the tap water system and the sewage system must be engineered to meet the present housing needs before any additional connection is made. A full consultation with local knowledge must be carried out as a part of this re-visit.

*(write on a separate sheet/expand box if necessary)*

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

After this stage, further submissions will only be at the request of the Inspector, based on the matters and issues he/she identifies for examination.
