Subject: Local Plan Objection

My objection to the local plan is threefold. (1) There is no provision as far as I can see for extra car parking in the town. While I understand that consideration is being given to developing the old Health Centre site as a car park, this appears not to be mentioned. Furthermore and bearing in mind the planned construction of three thousand two hundred more dwellings in the Ashby area serious consideration, and proper agreement must be given to the construction of a multi-storey car park on this site in order that future need for car parking in the town may be met. It is not enough to create a car parking area on one or other of the new estates. (2) Too little attention is given to the provision of schools, both primary and secondary. This must be rectified. (3). It appears to have been agreed that this authority should accept the number of new houses proposed, a number which is disproportionate to other areas in the county, putting unreasonable strain on local facilities and people (revenue providers). The numbers should be reduced.

H3

Added to which note might be made that we have lost our hospital. Please ensure that this communication reaches the destination where it will be studied and, hopefully, acted upon. Would you kindly advise me of receipt of same. Yours faithfully Elizabeth Vos Mrs.
