| iii) Complies with the<br>Duty to co-operate | Yes <input type="checkbox"/> | No <input type="checkbox"/>            |

5. Please give details of why you consider the Local Plan not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

The definition of 'sustainable development' at paragraph 1.1 does not recognise the constraint of environmental limits and therefore does not explain how the plan policies will distinguish 'sustainable development' from other forms of development. It needs a more thorough definition of sustainability drawing on key policy sources such as DEFRA's 'Securing the Future' which remains the most definitive approach accepted by successive governments. (<https://www.gov.uk/government/publications/securing-the-future-delivering-uk-sustainable-development-strategy>) A useful overview is also provided by the Parliamentary Office of Science and Technology (POST) in 'Seeking Sustainability' PostNote No.408, March 2012 (<http://researchbriefings.parliament.uk/ResearchBriefing/Summary/POST-PN-408#fullreport>)

The carbon foot print for the District discussed in para 3.1 (Climate Change) recognises that those due to transport are above the average for England and they are not declining as steadily as other sources. Para 3.1. (Transport and access) recognises

that travel to work is dominated by the car. Para 9.22 offers no mean of addressing the growth of car journeys arising from the scale of new housing development particularly when located in rural villages. Para 12.4 omits any policy for addressing the impact on carbon emissions of increased numbers of car journeys arising from the extent and location of new housing development.

This persisting problem of carbon emissions from transport has been identified by the Committee on Climate Change as a major obstacle to the achievement of national targets. (Committee on Climate Change. 2016 Progress Report to Parliament. June 2016 Chap 5 p134

*(Continue on a separate sheet/expand box if necessary)*

6. Please set out what modification(s) you consider necessary to make the Local Plan legally compliant or sound, having regard to the test you have identified at 5 above where this relates to soundness. (NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The District should have a Climate Change policy to reduce the carbon emissions arising from car journeys by residents in North West Leicestershire.

A new site for housing development should not be permitted if an appraisal as to its consequences for car use shows that it is likely to lead to additional carbon emissions.

*(Continue on a separate sheet/expand box if necessary)*

**Please note** your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

***After this stage, further submissions will only be at the request of the Inspector, based on the matters and issues he/she identifies for examination.***

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination?

**No**, I do not wish to participate at the oral examination.

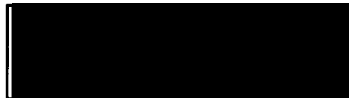

**Yes**, I wish to participate at the oral examination

8. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

This policy is overlooked and needs some new input.

***Please note the inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the examination.***
